

### Seating Trouble...

At the wedding reception, the five guests shown above don't know how to arrange themselves at the dinner table. They ask the bride's mother, who responds, "As I remember, Colin isn't next to Kate, Emily isn't next to Fred or Kate. Kate isn't next to Irene; neither is Emily, and Fred should sit on Irene's left." As you look at them from the opposite side of the table, can you correctly seat the guests from left to right?
