

VISUAL BRAINSTORMS®

Answer: Kimberly will have \$9 left.

Here's how: Kimberly spent \$15 on clothes ($1/4$ of \$60 = \$15), \$30 on CD's, and \$6 on food (10% of \$60 = \$6), for a grand total of \$51. Subtract \$51 from \$60 and Kimberly's left with \$9.

Visual Bonus — Do Not Turn Card Over

Bonus: What type of food did Kimberly order at the food court?

Answer: Chinese... (Kimberly loves Peking Delight's egg rolls and fried rice combo).
